The City of Vallejo's story begins in 1844 when General Mariano G. Vallejo saw the promise of the area. Named after him and twice the site of the state capitol in the 1850s, Vallejo grew into an important shipping and naval center. Legend has it that Mare Island got its name after Gen. Vallejo drove a herd of horses across the Carquinez Strait.

Established in 1854, Mare Island Naval Shipyard was the West Coast's first shipyard. Closed in 1996, Mare Island now stands poised to become an industrial, commercial and residential centerpiece for the city into the next millennium. A strong economy and affordable housing has meant new prosperity for Vallejo, as new businesses and new residents come to the city. Waterfront and Mare Island redevelopment have become a community effort, with input from residents helping shape the future of what could become the most important economic generator of the city.

The city's Ferry Terminal and ferry service have served as a model for the rest of the Bay Area, helping make Vallejo a transportation and commuter hub for the North Bay. Six Flags, restaurants and the Downtown Farmer's Market help make Vallejo the vibrant community it is today.

## WOODLAND

In 1853, Henry Wycoff settled in a grove of oak trees and opened a small store; not long after that other businesses followed. This included a store owned by Major F. S. Freeman, who offered free lots to anyone who would clear the land and build homes. Soon the settlement of Yolo County was renamed Woodland and in 1862, the Yolo County seat was transferred to Woodland from present-day West Sacramento.

Various transportation routes create a wealth of opportunities for industry and commerce. Easily termed in the "Heart of California," Woodland's proximity to the state capital of Sacramento places it near the political pulse of the state. Outside the San Francisco seismic area, Yolo County covers an area of 1,034 square miles, bounded by the Sacramento River on the east, Putah Creek on the south, Colusa County on the north and the Coast Ranges (Little Blue Ridge and Vaca Mountain Range) on the west.
